

## **GUCKE HER | LOOK HERE**

Q & A with Konrad

### *1. What does Saxon mean to you?*

- Saxon for him means memories, memories of his childhood, when everything was still easy.
- Today at 26 he asks himself why Saxon isn't that present anymore.
- Is it dying out?
- It's a complex world. Saxon helps them articulate difficult things in easy words.

### *2. How did your cooperation work out?*

- They knew they needed help for this project, so Leila Uhl and Teresa Safka from the erotic magazine "Das Erotik Magazin" came to help.
- They liked each other: the girls the boys' music, the boys the girls' opinions.
- Including the girls' opinion about the "male gaze": the look with which men look at women.
- They wanted to turn it around: in this video, the male body should be determined by the female gaze.
- Thus Leila and Teresa decided the camera and scenery, let their gaze wander about the boys' bodies.

### *3. Why did you tape your nipples?*

- On Youtube and Facebook, women are not allowed to show their nipples.
- The boys didn't show their nipples either, because they find women cool.
- If it is too "sexual" to show female nipples, it's the same for males — isn't it?
